autism / Patricia Howlin -- A developmental approach to
understanding atypical development / Tedra A. Walden and Jennifer J.
Hurley -- The neural basis of early joint-attention behavior / Peter
Mundy and Danielle Thorp.

Sommario/riassunto

From leading clinical researchers, this book presents important
advances in understanding and treating the early social-communication
difficulties that are hallmarks of autism spectrum disorders (ASD). It is
grounded in current findings on typically and atypically developing
infants, toddlers, and preschoolers. Contributors highlight the
connections between ASD and impairments in joint attention,
communication and language, play, and imitation. They review
approaches to supporting children's functioning in each area, along
with evidence-based screening and
