### Sommario/riassunto

This book is the first comprehensive contribution to understanding the character of important societal transitions in Tanzania during Benjamin Mkapa's presidency (1995- 2005). The analyses of the trajectory of these transitions are conducted against the background of the development model of Tanzania's first president, Julius Nyerere (1961-1985), a model with lasting influence on the country. This approach enables an understanding of continuities and discontinuities in Tanzania over time in areas such as development strategy an ideology, agrarian-land, gender and forestry issues, economic
