Collana	New Directions in Romani Studies ; ; 1
Classificazione	LB 47005
Disciplina	305.8914/97
Soggetti	Romanies - Politics and government Romanies - Social conditions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- CONTENTS -- ILLUSTRATIONS -- ABBREVIATIONS -- PREFACE -- Introduction. Renewing Research and Romani Activism -- PART I. RENEWING METHODS, RENEWING SITES -- Chapter 1. Neoliberalism and the Spirit of Nongovernmentalism: Toward an Anthroposociology of Roma-Related Engagement and Activism -- Chapter 2. Emotions and Procedures: Contradictions of Early Romani Activism in a Postconflict Intervention -- Chapter 3. Encounters at the Margins: Activism and Research in Romani Studies in Postsocialist Romania -- PART II. RENEWING EPISTEMOLOGIES -- Chapter 4. Paradigm Shift and Romani Studies: Research "on" or "for" and "with" the Roma -- Chapter 5. Transgressing Borders: Challenging Racist and Sexist Epistemology -- Chapter 6. Alter-Narratives: Seeing Ordinary Agency -- PART III. RENEWING ACTIVISMS -- Chapter 7. Policy Input on the Front Line: Dilemmas of the Ethical Academic -- Chapter 8. Between Global Solidarity and National Belonging: The Politics of Inclusion for Romanians in Turkey -- Chapter 9. "Be Young, Be Roma": Modern Roma Youth Activism in the Current Panorama of Romani Affairs -- INDEX
Sommario/riassunto	"Exploring contemporary debates and developments in Roma-related research and forms of activism, this volume argues for taking up reflexivity as practice in these fields, and advocates a necessary renewal of research sites, methods, and epistemologies. The contributors gathered here - whose professional trajectories often lie at

the confluence between activism, academia, and policy or development interventions - are exceptionally well placed to reflect on mainstream practices in all these fields, and, from their particular positions, envision a reimagining of these practices."--Provided by publisher.

Sommario/riassunto	<p>Two gifted eighteenth-century Londoners, Charles Cavendish and his painfully preeminent son Henry were descendants of paired revolutions, one political and one scientific. Scions of a powerful revolutionary family, they gave an original turn to the duty of public service that attached to their social rank. The English aristocracy knew one of its finest hours when Henry Cavendish gently laid his delicate weights in the scales of the first great precision balance of the century. For this action to happen, it took two generations and two kinds of invention, one in social forms and the other in scientific methods. This joint biography of father and son tells how it came to pass. Henry Cavendish is best known for his researches in chemistry, electricity, and heat, but in truth he worked in every part of physical science, bringing to it his unique combination of experimental precision and mathematical penetration. His accomplishment is likened to the highest example: since the death of Newton, Humphry Davy wrote, England has suffered "no scientific loss so great as that of Cavendish." Through inheritance he became immensely rich. Regarding intellect and fortune, he is called</p>

"the wisest of the rich and the richest of the wise." In his exclusive devotion to science, he is compared with "the most austere anchorites," who were "not more faithful to their vows." With reference to his legendary shyness, he is described as a man of "most reserved disposition," of a "degree bordering on disease." He was, to be sure, all of these things: one of the best scientists of his time, one of the richest men in the kingdom, a member of one of the politically most influential aristocratic families, a scientific fanatic, and a person of extraordinary peculiarities. This biography, a major revision of the original published in 1999, offers an enlarged understanding of the eighteenth century world of science and a reevaluation both of the scientific genius and of the remarkable personality of Henry Cavendish. It is a comprehensive study of science, family, and society in the eighteenth century.
