Sommario/riassunto	It is estimated that a quarter of all women will be stalked in their lifetime. Stalkers put their victims in danger of losing their jobs, their support system, even their lives; and subject them to dangerously high levels of fear and stress. This book examines the multiple aspects of partner stalking from the victim's perspective. Female survivors share their personal stories of partner stalking, and the authors provide an

extensive look at the latest stalking research providing readers with the new most relevant implications for practice and future research. The book informs students, profess
