Letter to Paul Carus; Index Sommario/riassunto Charles Peirce's Illustrations of the Logic of Science is an early work in the philosophy of science and the official birthplace of pragmatism. It contains Peirce's two most influential papers: ?The Fixation of Belief" and ?How to Make Our Ideas Clear," as well as discussions on the theory of probability, the ground of induction, the relation between science and religion, and the logic of abduction. Unsatisfied with the result and driven by a constant, almost feverish urge to improve his work, Peirce spent considerable time and effort revising these papers. After the turn of the ce
