Stone -- India and climate change : mitigation, adaptation, and a way forward / Jvoti Parikh -- Correct choices for China : energy conservation, a cyclic economy, and a conservation-minded society / Shen Longhai.
Sommario/riassunto	"Comprehensive examination of the economic, social, and political context of climate policy in industrialized and developing nations. Calls

for a multilateral approach that goes beyond the mitigation-focused Kyoto policies and stresses the importance of generating policies that work within a time frame commensurate with that of climate change itself"--Provided by publisher.
