Sommario/riassunto	This is a study of the impact of inter-war naval arms control policy-making on the domestic politics of Japan, especially the areas of civil-military, inter-military (Army/Navy) and especially intra-military (Navy) relations and on the professional and political career of one leading naval figure, Admiral Kato Kanji (1873-1939). In this re-appraisal of

Kato's career, the author challenges the conventional and negative interpretation of both Kato's role in the naval politics and factions within the Imperial Navy, utilizing Kato's involvement in the domestic political debate as a focal device fo

Sommario/riassunto	This book presents thumbnail sketches of pertinent information relating to poisoning of small animal pets by commonly encountered substances, plants and other items. For each agent, information is given on toxicology, clinical effects, appropriate first aid and subsequent management and prognosis. This resource is designed as a triage tool to enable veterinary surgeons and their staff to give appropriate guidance to clients that suspect their animals may have been poisoned. The level of urgency is indicated in each case. Please note that the poisons entries are not intended to provide comprehensive advice about the management of any case and should not be the sole information resource used to manage a poisoning case.
