Michael Frese, and Elizabeth Salmon; 12. A New Look at Errors: On

Errors, Error Prevention, and Error Management in Organizations:

Michael Frese and David A. Hofmann; Author Index; Subject Index

Sommario/riassunto

"This volume is dedicated to creating a single source that both summarizes what we know regarding errors in organizations and provide a focused effort toward identifying future directions for research. The goal is to provide a forum for researchers who have conducted a considerable amount of research in the error domain to discuss how to extend this research, and provide researchers who have not considered the implications of errors for their domain of organizational research an outlet to do so"--
