Sommario/riassunto

Im Fokus vieler Nachwuchsinitiativen steht, das Hineinwachsen in Forschung und Entwicklung der Bildungseinrichtungen zu erleichtern. Zu diesen Initiativen gehört auch das "Junge Forum Medien und Hochschulentwicklung", das Nachwuchsforschenden sowie -praktikerinnen und -praktikern aus den vier beteiligten Fachgesellschaften (dghd, GMW, GI/FG E-Learning sowie DGfE/Sektion Medienpädagogik) eine Plattform für Diskurs und Austausch zwischen Wissenschaft und Praxis bietet. Die hier dokumentierten Tagungsbeiträge aus dem Jahr 2013 sind dabei so divers, wie formelle oder informelle Lern- und Bildungsprozesse mit und ohne Medien nur sein können. Es wird z. B. diskutiert, welche Rolle Prozesse der Gestaltung im Kontext von hochschul- und mediendidaktischer Forschung einnehmen und wie digitale Technologien Lern- und Bildungsprozesse praktisch unterstützen. Einige Beiträge zur Personalentwicklung und Nachwuchsförderung in Wissenschaft und Hochschulen rahmen den Band zum #JFMH13 ein.

Sommario/riassunto	This book brings to light the current job responsibilities of the healthcare librarian, but at the same time reveals a dichotomy. In theory, advances in healthcare research promise better care and improved safety for patients. In practice, there are barriers that

undermine change. The author calls attention to the underutilized healthcare librarian at a time when clinical information delivery to the doctor or nurse is equal to or more important than how wired the hospital is. This is a book for healthcare stakeholders who support evidence-based practice and for those considering entering medi
