Sommario/riassunto

In 'Heat, Dust, and Taxes,' Lex Fullarton explores the taxpayer compliance behavior of blue-collar workers in the Pilbara region of Western Australia in the 1990s who participated in mass-marketed tax avoidance schemes at significantly higher rates than any other group of Australian taxpayers. Investigating the motivational factors which might have caused that and providing a broad background and context, Fullarton considers the physical, economic, and social environments of the Pilbara region, highlighting the extremely harsh physical and social environments in which the locals live and work.

Sommario/riassunto	The four sovereign Indian Ocean states of Comoros, Madagascar, Mauritius and Seychelles, the two French overseas departments of Mayotte and Reunion, as well as the British colony of BIOT (Chagos), all form part of Africa. As insular nations and territories in an increasingly globalized, militarized and largely unregulated ocean, they face particular challenges. Commonly overlooked in the fields of African and international studies, this text traces the islands' history and explores their diverse contemporary social, political and economic trajectories. From human settlement and slavery to conflict resolution and piracy, the relations with continental Africa and the African Union feature prominently. Richly sourced, this comprehensive and up-to-date introduction to Africa's Indian Ocean islands covers a significant

lacuna.
