Descrizione fisica	1 online resource (225 pages)
Disciplina	327.4107309033
Soggetti	United States Foreign relations Great Britain Great Britain Foreign relations United States United States Foreign relations 1775-1783 Great Britain Foreign relations 1714-1837 Great Britain History 1714-1837 United States History Revolution, 1775-1783 United States History Colonial period, ca. 1600-1775
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Britain and the USA have helped define much of world history in recent centuries, and the relationship between the two is crucial to this history. This book focuses on a key period in their relationship that moulded the character of the British Empire, the USA and the way the two have interacted since. The rise and crises of empires will always fascinate the observer because in their fate we see much of human history. Certainly the struggle for empire in the 18th Century was key to the fate of North America. British victory followed by the American Revolution helped to define the modern world. The European nations of Britain, France and Spain were eager for predominance and the trappings of trade, land and prestige. Within North America, there were the local agents of these powers and their subjects, who in turn held their own interests and views; whilst the Native Americans were more than simply the passive victims of European expansion. This

fascinating and complex story is told by Black with narrative drive and scholarly acumen.
