

1. Record Nr.	UNINA9910824144903321
Titolo	Philosophy and psychiatry // edited by Thomas Schramme, Johannes Thome
Pubbl/distr/stampa	Berlin ; ; New York : , : De Gruyter, , [2004] ©2004
ISBN	3-11-090576-0
Edizione	[Reprint 2012]
Descrizione fisica	1 online resource (391 p.)
Classificazione	CC 3600
Altri autori (Persone)	SchrammeThomas ThomeJohannes
Disciplina	616.89001
Soggetti	Psychiatry - Philosophy Philosophy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front matter -- Preface -- Contents -- Contributors -- Introduction: The Many Potentials for Philosophy of Psychiatry / Schramme, Thomas / Thome, Johannes -- The Relation of Philosophy and Psychiatry -- Thus Spake Settembrini: A Meta-Dialogue on Philosophy and Psychiatry / Marinoff, Lou -- Ten Principles of Values-Based Medicine (VBM) / Fulford, K.W.M. (Bill) -- Classification and Conceptual Considerations -- The Concept of Psychiatric Nosology / Pichot, Pierre -- The Legacy of Antipsychiatry / Schramme, Thomas -- Archaic Concepts for Explaining Disorders / Assion, Hans-Jörg -- The Problem of Universalism in Psychiatry / Thome, Johannes -- Lacan and Psychiatry / Campbell, Aisling -- Methodology and Philosophy of Science -- Methodological Issues in Psychiatry: Psychiatry as an Empirical Science / Möller, Hans-Jürgen -- Humanities and Molecular Psychiatry / Thome, Johannes -- The Challenge of Neuroscience: Psychiatry and Phenomenology Today / Fuchs, Thomas -- Diagnosis of Core Schizophrenia as an Example of Applied Analytic Phenomenology / Sigmund, Dieter -- Epistemology -- Can We Know What Others Feel? Anthropological and Epistemological Considerations in Emotional Neuroscience / Juckel, Georg / Heinz, Andreas -- On Time Experience in Depression - Dominance of the Past / Emrich, Hinderk M. / Dietrich, Detlef E. -- Compulsion, Volitional Disorder, and Freedom of the Will

-- Rigidity: The Strange Preference for Compulsion / Löw-Beer, Martin  
-- Towards a Psychiatric Anthropology of Addiction / Schlimme, Jann  
-- Neurophilosophical Perspectives on Conservative Compatibilism /  
Walter, Henrik -- Freedom of Will, Freedom of Action and Psychiatry:  
Concerning the relationship of empirical to intelligible character and  
so-called freedom of choice in the view of forensic psychiatry / Luthe,  
Rainer / Rösler, Michael -- Personal Identity -- Why Are Identity  
Disorders Interesting for Philosophers? / Metzinger, Thomas -- The  
Influence of Brain Implants on Personal Identity and Personality - a  
Combined Theoretical and Empirical Investigation in 'Neuroethics' /

### Sommario/riassunto

Philosophie und Psychiatrie teilen viele Problemfelder und Fragestellungen. So zeitigen z.B. die "Lösungen" der Psychiatrie des philosophischen Leib-Seele-Problems direkte Auswirkungen auf das Selbstverständnis der Disziplin. Trotz dieser offensichtlichen Überschneidungen wurde im Vergleich zum angelsächsischen Sprachraum in Deutschland bislang wenig interdisziplinäre Forschung zur "philosophischen Psychopathologie" betrieben. Die vorliegende Anthologie schließt diese Lücke, denn die Autoren - sowohl ausgewiesene Fachleute als auch junge Wissenschaftler, die mit neuen Ansätzen zukunftssträchtige Perspektiven eröffnen - kommen aus beiden Disziplinen. Die einzelnen Beiträge setzen sich mit philosophischen Debatten auseinander, wie sie sich im Kontext psychiatrischer Theorie und Praxis ergeben.

Philosophy and psychiatry share many topics and problems. For example, the "solutions" of the psychiatry of the philosophical body-soul problem have direct effects on the self-image of the discipline. Despite these obvious overlappings, and unlike the English-speaking countries, interdisciplinary research on "philosophical psychopathology" has been scarce in Germany. The current anthology closes these gaps, because the authors - renowned experts as well as young scientists, whose new approaches open promising perspectives - come from both disciplines. The individual contributions deal with philosophical debates as they arise within the context of psychiatric theory and practice.
