Sommario/riassunto	Japan has developed what is arguably the most sophisticated and the

most democratic broadcasting system in the world. The Great Kanto Earthquake of 1st September 1923, with its devastation and confusion drove home in its appalling way the importance of being able to broadcast immediate information to the public. The same year, the Ministry of Communications promptly established an administrative system to regulate broadcasting. In less than a decade over one million people were registered listeners. Under the post war Constitution of 1946 freedom of "speech and all other forms o
