Stories of Mutual Development -- 3.1 Disconnection within participation: an unexpected response -- 3.2 Sharing music in the moment: the young Iranian man -- 3.3 Opening the curtain: Mr. Martens and Mr. Willems -- 3.4 Performing Angels: coping with emotion -- 3.5 A safe place for a musical encounter with Mr. Vink -- 3.6 Seeing the person behind the patient: Stefan's growth -- 4. Learning Pathways: Musicians, Patients and Nurses -- 4.1 Musicians -- 4.2 Patients -- 4.3 Nurses -- 5. Towards Intuitive Artistry -- 5.1 Participation -- 5.2 Compassion -- 5.3 Excellence -- 5.4 The tacit dimension of professional artistry -- 6. Changing Perspectives of Excellence -- 6.1 Interprofessional collaboration and learning -- 6.2 Perspectives on musicians' education -- 6.3 Coda -- References -- Protagonists -- The authors.
Sommario/riassunto	What can music 'move' in a hospital setting? This intriguing question is at the heart of this book. The research project Meaningful Music in

Healthcare at the Hanze University of Applied Sciences Groningen explored the possibilities of bringing professional musicians and their music into a hospital setting with severely ill and vulnerable people. The journey of the musicians, patients and nursing staff that followed proved both worthwhile and exciting to explore.
