

1. Record Nr.	UNINA9910824183803321
Titolo	Alzheimer's disease diagnosis and treatments // Marisa R. Boyd, editor
Pubbl/distr/stampa	Hauppauge, NY, : Nova Science, c2010
ISBN	1-61122-586-8
Edizione	[1st ed.]
Descrizione fisica	1 online resource (320 p.)
Collana	Neurology--laboratory and clinical research development series Aging issues, health and financial alternatives series
Altri autori (Persone)	BoydMarisa R
Disciplina	616.8/31
Soggetti	Alzheimer's disease - Diagnosis Alzheimer's disease - Treatment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Alzheimer's disease: 100 years of research : a historical perspective and commentary / Walter J. Lukiw -- Controlled and automatic memory processing in Alzheimer's disease / John M. Hudson -- Age of onset related differences in clinical and neuropsychological features of Alzheimer's disease / Erin Saito ... [et al.] -- Early onset dementia with abundant non-neuritic a [beta] plaques and without significant neuronal loss : report of two Japanese autopsy cases / Osamu Yokota, Kuniaki Tsuchiya, and Shigetoshi Kuroda -- How and where does a [beta] exert its toxic effects in Alzheimer's disease? / Damian C. Crowther ... [et al.] -- The spatial patterns of [beta]-amyloid (a [beta]) deposits and neurofibrillary tangles (NFT) in late-onset sporadic Alzheimer's disease / Richard A. Armstrong -- Brain function in altered states of consciousness : comparison between Alzheimer dementia and vegetative state / Melanie Boly, Eric Salmon and Steven Laureys -- Cognitive deficits in mild cognitive impairment / F. Ribeiro, M. Guerreiro and A. de Mendonca -- Mitochondrial pathology and Alzheimer's disease / Michelangelo Mancuso ... [et al.] -- Calmodulin binds to and regulates the activity of beta-secretase (BACE1) / Sara E. Chavez and Danton H. O'Day -- Transgenic models of alzheimer's pathology : success and caveats / Benoit Delatour ... [et al.] -- Relevance of COX-2 inhibitors in Alzheimer's disease / Amita Quadros ... [et al.] -- Copper studies in Alzheimer's disease / R. Squitti ... [et al.]

-- Theoretical comparison of copper chelators as anti-Alzheimer and anti-prion agents / Liang Shen, Hong-Yu Zhang and Hong-Fang Ji --  
Toward a more rational approach to the treatment of patients with dementia with psychosis and behavioral disturbance / Suzanne Holroyd  
-- Amyloid clearing immunotherapy for Alzheimer's disease and the risk of cerebral amyloid angiopathy / Shawn J. Kile and John M. Olichney --  
Use of antidepressants in older people with mental illness : a systematic study of tolerability and use in different diagnostic groups / Stephen Curran ... [et al.] --  
Cystatin C role in Alzheimer disease : from neurodegeneration to neuroregeneration / Luisa Benussi, Giuliano Binetti and Roberta Ghidoni --  
A theoretical evaluation on acetylcholinesterase-inhibitory potential of quercetin / Hong-Fang Ji and Hong-Yu Zhang --  
Therapy with drug product AZD-103 may ease Alzheimer's disease / Antonio Orlacchio and Toshitaka Kawarai --  
NSAIDs in animal models of Alzheimer's disease / M. G. Giovannini ... [et al.]

---
