Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. I. The aural road -- pt. II. Moods and melodies -- pt. III. The aural/oral road less traveled.
Sommario/riassunto	What can psychoanalysis learn from music? What can music learn from psychoanalysis? Can the analysis of music itself provide a primary source of psychological data? Drawing on Freud's concept of the oral road to the unconscious, Melodies of the Mind invites the reader to take a journey on an aural and oral road that explores both music and emotion, and their links to the unconscious. In this book, Julie Jaffee Nagel discusses how musical and psychoanalytic concepts inform each other, showing the ways that music itself provides an exceptional non-verbal path

Conclusion; References; Appendix: Test sentences; Test

sentences for Hungarian; Test sentences for Slovak; Word order variation in Hungarian PPs; 1. Introduction; 2. Variation in word order; 2.1 Variation in PP-internal word order; 2.2 Variation in positions in the clause; 2.3 Interim summary; 3. Analysis; 3.1 Background assumptions about PP structure; 3.2 Case-like Ps; 3.3 'Inflexible' case assigning Ps; 3.4 'Flexible' case assigning Ps that cannot be prepositions ; 3.5 'Flexible' case assigning Ps that can be prepositions

Sommario/riassunto

The acoustic properties associated with prominence (e.g. duration, F0) may also serve for "phonemic" contrasts. The question is thus how speakers correctly interpret these properties. We address this question in terms of an extension of the Functional Load Hypothesis (FLH): given that vowel length is contrastive in Hungarian, the FLH predicts that duration will not be the main cue to prominence (i.e. stress or focus). Based on a large, systematically collected corpus, we demonstrate that this is, in fact, the case; the main cue for both is pitch (F0), though its characteristics are different.

Sommario/riassunto	The contributions in this volume consider the question of migrant agency, how Western societies are both transforming migrants, and being transformed by them. It is informed by debates on the new 'transnational mobility', the immigration of Muslims, the increasing importance of human rights law, and the critical attention paid to women migrants.
