Sommario/riassunto	China and India's spectacular economic rise over the last two decades has accelerated their trade and investment flows with the Middle East and North Africa (MENA), particularly with the oil-producing countries. And while these flows are still small, China and India's presence in the region is on the rise. This report focuses on the following questions: what have been evolution and the impact of MENA's trade and investment relations with China and India? what actions can be taken to maximize the benefits from these relations and to enhance MENA's international integration? The main findings ind
