Nota di contenuto	Introduction -- Universal basic rights for animals -- Extending animal rights via citizenship theory -- Domesticated animals within animal rights theory -- Domesticated animal citizens -- Wild animal sovereignty -- Liminal animal denizens -- Conclusion.
Sommario/riassunto	For many people 'animal rights' suggests campaigns against factory farms, vivisection or other aspects of our woeful treatment of animals. 'Zoopolis' moves beyond this familiar terrain, focusing not on what we must stop doing to animals, but on how we can establish positive and just relationships with different types of animals.
