Sommario/riassunto

The choices made by governments about how to reward their top employees reveal a great deal about their values and their assumptions about governing. This book examines rewards of high public office in seven Asian political systems, a particularly rich set of cases for exploring the causes and consequences of the rewards of high public office, having some of the most generous and most meagre reward packages in the world. There are a range of economic, political and cultural explanations for the rewards provided by governments. Likewise, these choices are assumed to have a number of conseque
