Sommario/riassunto	Global financial crisis, global environmental crisis - what connects them? Stuart Sim claims they are both symptoms of the end of modernity, the cultural system that has prevailed in the West from the Enlightenment onwards. In this provocative book, Sim argues that the modern world's insatiable need for technologically-driven economic progress is unsustainable, and potentially destructive of the planet and its socio-economic systems. The new landscape this creates - socially, politically, economically, intellectually - is explored through an interdisciplinary approach, providing a wide-ranging
