Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	part I. Identifying and understanding the trend -- part II. Technical analysis for identifying individual stocks -- part III. Options strategies -- part IV. Design and execution.
Sommario/riassunto	A thorough guide to technical analysis methods applied for success in the options market Though still not widely practiced or accepted in the options market, technical analysis is becoming increasingly common. As the practice spreads, traders are discovering how useful technical analysis is for determining clear entry and exit signals. Trading Options: Using Technical Analysis to Design Winning Trades takes the standard technical analysis approach and applies it to the options market. Author Greg Harmon combines technical analysis with a deep understanding of the options market
