Sommario/riassunto	A system reset is imminent. Probably even before 2020, the world's financial system will need to find a different anchor. The dollar has been at the center of the monetary system since the Second World War, but decades of money printing have caused a gradual but relentless dollar devaluation. In a desperate attempt to maintain this dollar system, the United States has waged a secret war on gold since the 1960's. China and Russia have pierced through the American smokescreen around gold and the dollar and are no longer willing to continue lending to the United States. Both countries have been...
