

1. Record Nr.	UNINA9910824377503321
Titolo	Climate change, forests and REDD : lessons for institutional design // edited by Joyeeta Gupta, Nicolien van der Grijp and Onno Kuik
Pubbl/distr/stampa	Abingdon, Oxon ; ; New York, N.Y. : , : Routledge, , 2013
ISBN	1-135-13025-6 1-138-80964-0 0-203-07722-9 1-299-14118-8 1-135-13026-4
Descrizione fisica	1 online resource (289 p.)
Collana	Routledge research in environmental law
Altri autori (Persone)	GrijpNicolien van der GuptaJoyeeta <1964-> KuikOnno <1955->
Disciplina	577.27
Soggetti	Carbon sequestration Climate change mitigation - International cooperation Deforestation - Environmental aspects Forest degradation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Climate Change, Forests and REDD: Lessons for Institutional Design; Contents; Tables; Figures; Boxes; Contributors; Acknowledgements; Abbreviations; 1 Climate change and forests: From the Noordwijk Declaration to REDD; 1.1 Introduction; 1.2 Climate change; 1.2.1 The physical problem; 1.2.2 The governance process; 1.2.3 The key political challenges; 1.3 Forests; 1.3.1 Current status; 1.3.2 Deforestation and degradation; 1.3.3 The governance process; 1.3.4 The key political challenges; 1.4 Climate change and forests; 1.5 The research questions and the analytical framework; 1.6 Inferences 2 The forest transition, the drivers of deforestation and governance approaches2.1 Introduction; 2.2 The forest transition; 2.3 The drivers of deforestation; 2.3.1 Generic drivers and forest transitions; 2.3.2 Drivers of deforestation in different regions; 2.4 Instruments of forest governance; 2.4.1 Introduction; 2.4.2 Forest transitions, drivers and

forest policy; 2.4.3 Classifying governance instruments; 2.4.4 Regulatory instruments; 2.4.5 Economic and market instruments; 2.4.6 Suasive, information and research instruments; 2.4.7 Management measures; 2.4.8 Forest instruments and drivers

2.5 Inferences³ Global forest governance; 3.1 Introduction; 3.2 Institutions; 3.2.1 A brief history; 3.2.2 Global institutions with a forest-focused mandate; 3.2.3 Global institutions with a forest-related mandate and/or an indirect impact on forest services; 3.2.4 Global governance institutions and ecosystem services; 3.2.5 Regional institutions with a forest-focused mandate; 3.2.6 Regional institutions with a forest-related mandate and/or an indirect impact on forest services; 3.2.7 Extra-territorial impacts of national governance

3.3 Key principles and concepts in international forest governance^{3.3.1} Key principles; 3.3.2 Key concepts; 3.4 Instruments of international forest governance; 3.4.1 Regulatory instruments; 3.4.2 Economic instruments; 3.4.3 Suasive instruments; 3.5 Inferences; 4 The emergence of REDD on the global policy agenda; 4.1 Introduction; 4.2 Forests under the UN Climate Convention and the Kyoto Protocol; 4.2.1 Early days: the forest-climate pre-Kyoto debate; 4.2.2 Forests in the Kyoto Protocol - 'integrating forest commitments into the climate regime'; 4.3 The emergence of REDD

4.3.1 REDD in the UNFCCC negotiations^{4.3.2} REDD developments outside the UNFCCC; 4.4 Key challenges for REDD at the international level: designing an effective, robust mechanism; 4.4.1 The right scale for REDD; 4.4.2 Reference levels; 4.4.3 Financing REDD; 4.4.4 Monitoring, reporting and verification; 4.4.5 Permanence, additionality and leakage; 4.4.6 Safeguards; 4.5 Key challenges for REDD at the domestic level: implementation and benefit-sharing; 4.5.1 The impact of REDD to date; 4.5.2 Challenges of good governance, tenure and internal benefit-sharing

4.5.3 Risks and implications of commodifying forest carbon

Sommario/riassunto

A search for new methods for dealing with climate change led to the identification of forest maintenance as a potential policy option that could cost-effectively reduce greenhouse gas emissions, with the development of measures for Reducing Emissions from Deforestation and Forest Degradation (REDD). This book explores how an analysis of past forest governance patterns from the global through to the local level, can help us to build institutions which more effectively deal with forests within the climate change regime. The book assesses the options for reducing emissions from deforestation i
