Sommario/riassunto

The topic of safety and security in the tourism industry is of vital importance globally. In recent years, and mainly after the 9/11 event, both academics and practitioners have started to look into crisis management issues seeking workable solutions in order to mitigate the negative impacts of safety and security incidences on the tourism industry and affected destinations. Tourism, Safety and Security: a multi dimensional analysis brings together the writings of international leading academics and practitioners in this field to discuss prevention measures and crisis management
