

1. Record Nr.	UNINA9910824514403321
Autore	Hamilton Stuart (Writer on water)
Titolo	Leak detection : technology and implementation // Stuart Hamilton and Bambos Charalambous
Pubbl/distr/stampa	London, United Kingdom : , : IWA Publishing, , 2020
ISBN	1-78906-086-9 1-78906-085-0
Edizione	[Second edition.]
Descrizione fisica	1 online resource (160 pages)
Disciplina	363.61
Soggetti	Water leakage - Management Leak detectors Water-supply engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Ageing infrastructure and declining water resources are major concerns with a growing global population. Controlling water loss has therefore become a priority for water utilities around the world. In order to improve efficiencies, water utilities need to apply good practices in leak detection. Leak Detection: Technology and Implementation assists water utilities with the development and implementation of leak detection programs. Leak detection and repair is one of the components of controlling water loss. In addition, techniques are discussed within this book and relevant case studies are presented. This book provides useful and practical information on leakage issues.
