form and function of Cleft constructions in the Swiss SMS corpus / Stark, Elisabeth -- Inferential cleft constructions in translation / Atayan, Vahram / Wiene, Ursula -- Motivating w(h)-Clefts in English and German: A hypothesis-driven parallel corpus study / Gast, Volker / Levshina, Natalia -- Subject index

Sommario/riassunto

The volume describes the frequency, the forms and the functions of different cleft construction types across two language families: the Romance languages (with discussion of Italian, French and Spanish data) and the Germanic languages (with focus on English, German, Swiss German and Danish).
