

1. Record Nr.	UNINA9910824605703321
Autore	Willging Jay Paul
Titolo	Pediatric dysphagia : etiologies, diagnosis, and management // Jay Paul Willging, Claire Kane Miller, Aliza P. Cohen
Pubbl/distr/stampa	San Diego, California : , : Plural Publishing, Inc., , [2020] ©2020
ISBN	1-63550-315-9
Descrizione fisica	1 online resource (743 pages)
Disciplina	616.323
Soggetti	Deglutition disorders - Diagnosis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	"Pediatric Dysphagia: Etiologies, Diagnosis, and Management is a comprehensive professional reference on the topic of pediatric feeding and swallowing disorders. Given that these disorders derive from abnormalities in the function and/or structure of the airway and digestive systems, multiple clinical specialists may be involved in the evaluation and management of affected children at any given point in time. This text therefore includes significant contributions from a wide range of experts in pediatric dysphagia, including all members of the Interdisciplinary Feeding Team at Cincinnati Children's Medical Center. These experts present an in-depth description of their roles in the diagnosis and management of dysphagic children, providing the reader with an understanding of why a multidisciplinary model of care is key to the optimization of outcomes"--
