

1. Record Nr.	UNINA9910824785603321
Autore	Mancuso Stefano
Titolo	Brilliant green : the surprising history and science of plant intelligence / / Stefano Mancuso, Alessandra Viola ; translated by Joan Benham ; foreword by Michael Pollan
Pubbl/distr/stampa	Washington, District of Columbia ; ; Covelo, California ; ; London, [England] : , : Island Press, , 2015 ©2015
ISBN	1-61091-604-2
Descrizione fisica	1 online resource (190 p.)
Disciplina	580
Soggetti	Plants - History Plants - Analysis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.

Sommario/riassunto

In this book, a leading plant scientist offers a new understanding of the botanical world and a passionate argument for intelligent plant life. Are plants intelligent? Can they solve problems, communicate, and navigate their surroundings? For centuries, philosophers and scientists have argued that plants are unthinking and inert, yet discoveries over the past fifty years have challenged this idea, shedding new light on the complex interior lives of plants. In *Brilliant Green*, leading scientist Stefano Mancuso presents a new paradigm in our understanding of the vegetal world. He argues that plants process information, sleep, remember, and signal to one another—showing that, far from passive machines, plants are intelligent and aware. Part botany lesson, part manifesto, *Brilliant Green* is an engaging and passionate examination of the inner workings of the plant kingdom.--
