

1. Record Nr.	UNINA9910824905203321
Autore	Hirji Rafik
Titolo	Environmental flows in water resources policies, plans, and projects : : findings and recommendations // Rafik Hirji and Richard Davis
Pubbl/distr/stampa	Washington, D.C. : , : World Bank, , c2009
ISBN	1-282-12160-X 9786612121609 0-8213-8012-5
Descrizione fisica	xviii, 189 pages : illustrations ; ; 23 cm
Collana	Environment and development
Altri autori (Persone)	DavisRichard <1948->
Disciplina	333.91/14
Soggetti	Water resources development - Environmental aspects Water-supply - Management Integrated water development Environmental policy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	CONTENTS; Foreword; About the Authors; Acknowledgments; Abbreviations; Overview; PART I Context and Rationale; Boxes; PART II Environmental Flows: Science, Decision Making, and Development Assistance; Figures; Tables; PART III Case Studies of Environmental Flow Implementation; PART IV Mainstreaming Implications; PART V Appendixes; References; Index
Sommario/riassunto	This book advances the understanding and integration in operational terms of environmental flows (water allocation) into integrated water resources management (IWRM). Based on an in-depth analysis of 17 global water policy, plan, and project case studies, it addresses the highly contested complexities of environmentally responsible water resources development, broadens the global perspectives on "equitable sharing" and "sustainable use" of water resources, and expands the definitions of "benefits sharing" in high-risk water resources development. The book fills a major gap in knowledge on IWRM
