

1. Record Nr.	UNINA9910825110903321
Autore	Carlson Thomas A
Titolo	The indiscrete image [[electronic resource]] : infinitude & creation of the human // Thomas A. Carlson
Pubbl/distr/stampa	Chicago, Ill., : University of Chicago Press, 2008
ISBN	1-282-06968-3 9786612069680 0-226-09317-4
Descrizione fisica	1 online resource (263 p.)
Collana	Religion and postmodernism
Disciplina	218
Soggetti	Theological anthropology - Christianity Philosophical anthropology Negative theology Postmodernism - Religious aspects - Christianity Technology - Religious aspects - Christianity
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 217-231) and indexes.
Nota di contenuto	Frontmatter -- Contents -- Acknowledgments -- Opening -- 1. Of God or a Salamander: The Creative Human as Indiscrete Image -- 2. "I am": Technological Modernity, Theological Tradition, and the Human in Question -- 3. The Living Image: Infinitude, Unknowing, and Creative Capacity in Mystical Anthropology -- 4. Of the Indefinite Human: Religion and the Nature of Technological Culture -- 5. Here Comes Everybody: Technopoetics and Mystical Tradition in Joyce -- 6. To Inherit: The Birth of Possible Worlds -- Closing -- Bibliography -- Index
Sommario/riassunto	Humanity's creative capacity has never been more unsettling than it is at our current moment, when it has ushered us into new technological worlds that challenge the very definition of "the human." Those anxious to safeguard the human against techno-scientific threats often appeal to religious traditions to protect the place and dignity of the human. But how well do we understand both theological tradition and today's technological culture? In <i>The Indiscrete Image</i> , Thomas A. Carlson challenges our common ideas about both, arguing instead that it may

be humanity's final lack of definition that first enables, and calls for, human creativity and its correlates-including technology, tradition, and their inextricable interplay within religious existence. Framed in response to Martin Heidegger's influential account of the relation between technological modernity and theological tradition, *The Indiscrete Image* builds an understanding of creativity as conditioned by insurmountable unknowing and incalculable possibility through alternative readings of Christian theological tradition and technological culture-and the surprising resonance between these two. Carlson concludes that the always ongoing work of world creation, tied essentially to human self-creation, implies neither an idol's closure nor an icon's transcendence, but the "indiscrete image" whose love makes possible-by keeping open-both the human and its world.
