Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Introduction -- The evidence on happiness -- Relative income and happiness -- Happiness and ethics -- Happiness and good development -- Happiness-oriented societal development under the premise of democracy -- Orientation for a knowledgeable world.
Sommario/riassunto	Despite decades of empirical happiness research, there is still little evidence for the positive effect of economic growth on life satisfaction. This poses a major challenge to welfare economic theory and to normative conceptions of socio-economic development. This book endeavours to explain these findings and to make sense of their ethical implications. While most of the existing literature on empirical happiness research is ultimately interested in understanding how to improve human lives and societal development, the ethical backdrop against which these findings are evaluate
