Sommario/riassunto	"The bicycle ranks as one of the most enduring, most widely used vehicles in the world, with more than a billion produced during almost two hundred years of cycling history. This book offers an authoritative and comprehensive account of the bicycle's technical and historical evolution, from the earliest velocipedes (invented to fill the need for horseless transport during a shortage of oats) to modern racing bikes, mountain bikes, and recumbents. It traces the bicycle's development in terms of materials, ergonomics, and vehicle physics, as carried out by inventors, entrepreneurs, and manufacturers."--Book jacket.

2. Record Nr.	UNINA9910825114503321
Titolo	Advancing executive coaching : setting the course for successful leadership coaching // Gina Hernez-Broome and Lisa A. Boyce, editors ; foreword by Allen I. Kraut

Nota di contenuto	section 1. Your traveling companions : coach, client, and organizational issues -- section 2. The journey : processes and practices of leadership coaching -- section 3. 'Recalculating' directions : evaluating the effectiveness of leadership coaching.
Sommario/riassunto	"For anyone who coaches leaders, this book addresses the most critical issues impacting the future of leadership coaching as an organizational development initiative. It is organized around a Leadership Coaching Framework that employs a systems approach to frame the myriad issues. In addition to the introductory chapter that provides an overview of the book, the sixteen contributed chapters are grouped into three sections with the final chapter providing a review of the

major themes in the volume with a discussion integrating the global discussions and future directions for leadership coaching"--
