

1. Record Nr.	UNINA9910825194303321
Titolo	Transformation products of emerging contaminants in the environment : analysis, processes, occurrence, effects and risks // edited by Leo M. L. Nollet and Dimitra A. Lambropoulou
Pubbl/distr/stampa	Chichester, West Sussex, United Kingdom : , : John Wiley & Sons Inc., , [2014] ©2014
ISBN	1-118-33957-6 1-118-33955-X 1-118-33956-8
Edizione	[1st ed.]
Descrizione fisica	1 online resource (965 p.)
Altri autori (Persone)	NolletLeo M. L. <1948-> LambropoulouDimitra A
Disciplina	363.738/4
Soggetti	Pollution - Environmental aspects Speciation (Chemistry) Pollutants - Biodegradation Environmental chemistry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	part I. General considerations -- part II. Transformation processes and treatment strategies -- part III. Analytical strategies -- part IV. Occurrence, fate and effects in the environment: an overview of major classes -- part V. Global spaciality and environment status of transformation products in the environment -- part VI. Risk assessment, management and regulatory framework -- part VII. Outlook.
Sommario/riassunto	One of the first books to cover transformation products, rather than primary compounds, Transformation Products of Emerging Contaminants in the Environment gathers, specifies, synthesizes, and advances existing knowledge of the most important transformation product (TPs) of the main groups of emerging contaminants with potential concern to human health and the environment. This two-volume set for researchers and professionals covers the sources of TPs

of emerging contaminants and their environmental behavior, their occurrence and effects on urban and marine environments, risk assessment
