Sommario/riassunto	Jean M. Bartunek, the 2001-2002 President of the Academy of Management, has written an excellent scholarly book on organizational and educational change. Using a joint insider/outsider approach, this book tells the story of a change agent group--a group of teachers--that was creating change in its organization setting, a Network of Independent Schools. The group's focus was on empowerment and professional development for teachers in the Network. The book describes virtually everything that happened in the group over its first seven years and summarizes what happened during its final two years.
