Sommario/riassunto	This book, written by a leading scholar in leadership, takes readers through a very realistic look at what it takes to develop leadership competencies. Focusing on four major goals, this text:*provides the reader with a broader and deeper understanding of what constitutes authentic leadership development;*challenges a very basic notion that leaders are born versus made;*talks about the elements that comprise leadership development so readers are informed to ask the many providers of leadership development the right questions; and*develops full leadership potential.
