Sommario/riassunto

This collection of essays re-examines works from such canonical figures as Eckhart, Augustine, Plotinus, Pseudo-Dionysius, Nicolas of Cusa, Teresa of Avila, John of the Cross, Julian of Norwich, along with the philosophical thought of Iris Murdoch, Jacques Lacan, and Martin Heidegger, and the contemporary phenomena of the Emerging Church. Presenting new readings of key ideas in mystical theology, and renewed engagement with the visionary and the everyday, the therapeutic and the transformative, these essays question how we might think about what may lie between transcendence and immanence.
