

1. Record Nr.	UNINA9910825428703321
Autore	Naylor John C (John Caldicott), <1945->
Titolo	Out of the blue : a 24-hour skywatcher's guide // John Naylor
Pubbl/distr/stampa	Cambridge ; ; New York, : Cambridge University Press, 2002
ISBN	1-107-13184-7 1-280-43381-7 9786610433810 1-139-14757-9 0-511-16975-2 0-511-06404-7 0-511-05771-7 0-511-30853-1 0-511-53659-3 0-511-07250-3
Edizione	[1st ed.]
Descrizione fisica	1 online resource (xii, 360 pages) : digital, PDF file(s)
Disciplina	551.56/5
Soggetti	Meteorological optics Astronomy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Daylight -- Shadows -- Mirages -- Sunset and sunrise -- Rainbow -- Coronae and glories -- Atmospheric halos -- Night sky -- Moon -- Eclipses -- Planets -- Stars -- Comets and meteors.
Sommario/riassunto	Why is the sky blue and why are sunsets red? When can I see a rainbow? Why is the moon sometimes visible in daylight? In Out of the Blue skywatcher John Naylor offers practical advice about where and when you can expect to see natural phenomena, what you will see and how to improve your chances of seeing it. He takes in both the night and the day sky, and deals only with what can be seen with the naked eye. Drawing on science, history, literature and mythology, and written in a popular style that assumes only basic scientific know-how, Out of the Blue is for everyone who enjoys being outdoors and who feels curious or puzzled about things optical and astronomical.
