Sommario/riassunto	"Drawing on the rich range and depth of the clinical experience of the contributors, this welcome volume will be a valuable tool for clinicians and trainees. The authors share a powerful commitment to the relevance and value of psychoanalytically based work with parents - an area all too often inadequately provided for - and provide heartening

evidence of the resilience and intellectual vitality of the various strands within this tradition. Part of the EFPP Monograph Series."--Provided by publisher.
