1. Record Nr. UNINA9910825463503321

| | |
|---|---|
| Autore | Pedrycz Witold <1953-> |
| Titolo | Granular computing : analysis and design of intelligent systems / / Witold Pedrycz |
| Pubbl/distr/stampa | Boca Raton, : CRC Press, 2013<br>Boca Raton : , : Taylor & Francis, , 2013 |
| ISBN | 9781351832625<br>135183262X<br>9781315216737<br>1315216736<br>9781439886878<br>1439886873 |
| Edizione | [1st edition] |
| Descrizione fisica | 1 online resource (295 p.) |
| Collana | Industrial electronics series |
| Classificazione | COM051240TEC008000 |
| Disciplina | 006.3 |
| Soggetti | Granular computing |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references. |
| Nota di contenuto | Front Cover; Contents; Preface; The Author; Foreword; Chapter 1 - Information Granularity, Information Granules, and Granular Computing; Chapter 2 - Key Formalisms for Representation of Information Granules and Processing Mechanisms; Chapter 3 - Information Granules of Higher Type and Higher Order, and Hybrid Information Granules; Chapter 4 - Representation of Information Granules; Chapter 5 - The Design of Information Granules; Chapter 6 - Optimal Allocation of Information Granularity: Building Granular Mappings; Chapter 7 - Granular Description of Data and Pattern Classification<br>Chapter 8 - Granular Models: Architectures and DevelopmentChapter 9 - Granular Time Series; Chapter 10 - From Models to Granular Models; Chapter 11 - Collaborative and Linguistic Models of Decision Making; Back Cover |
| Sommario/riassunto | "Given the nature of the technology, granular computing cuts across a broad range of engineering disciplines. This self-contained book builds upon introductory ideas and provides with illustrative examples that |

help facilitate a better grasp of more advanced material and enhance its overall presentation. It will be of a particular appeal to those engaged in research and practical developments in computer, electrical, industrial, manufacturing, and biomedical engineering. It will be equally well suited for those coming from non-technical disciplines where information granules assume a highly visible position"--
