Note generali Nota di bibliografia Includes bibliographical references and index. Nota di contenuto Cover; Contents; Preface; List of Contributors; VeniceChart Task Force Composition; 1 Epidemiology, Classification, and Clinical Impact of Ventricular Tachycardia/Ventricular Fibrillation: 2 Anatomy of Right/Left Ventricles and Surrounding Structures in Health and Disease; 3 Pathophysiology and Mechanisms of Ventricular Tachycardia/Ventricular Fibrillation: 4 Electrocardiogram Features of Ventricular Tachycardia/Ventricular Fibrillation as Expression of the Underlying Mechanisms and Site of Origin; 5 Pre- and Intraprocedural Management: 6 Mapping Methods for Ventricular Tachycardia Ablation 7 Imaging Tools, Energy Sources and Catheters for Ventricular Tachycardia/Ventricular Fibrillation Ablation8 Ablation of Ventricular Tachycardia/Ventricular Fibrillation in Patients with Structural Heart

Disease: Techniques and Results; 9 Ablation of Ventricular

Disease: Techniques and Results; 10 Acute and Periprocedural Complications; 11 Post-ventricular Tachycardia Ablation Follow-up

Tachycardia/Ventricular Fibrillation in Patients without Structural Heart

Management; 12 Surgical Ablation; 13 Indications to Ventricular Tachycardia/Ventricular Fibrillation Ablation and Hybrid Therapy 14 Future Tools and Treatment Options for Catheter Ablation of Ventricular Tachycardia/Ventricular FibrillationIndex; A; B; C; D; E; F; G; H; I; L; M; N; O; P; R; S; T; U; V; W

## Sommario/riassunto

Describes best practices in Ventricular Tachycardia and Fibrillation Ablation based on a consensus of the world's leading experts, based on the annual 'Venice Arrythmias' meeting. Catheter ablation of atrial fibrillation has become a widespread, yet controversial, treatment modality in electrophysiology laboratories. Presents a comprehensive and up-to-date overview of all the most important and debated aspects of atrial fibrillation ablation. Covers all key topics, from pre- and intraprocedural management to best techniques and outcomes for patients with and without structural HD to Indicatio
