Sommario/riassunto	Disciplinary knowledge is under threat in the modern world. Claims abound that we are entering a landscape in which the division of

disciplines is obsolete, implying a commitment to outdated values in scholarship. Notions of 'discipline' are critiqued as reflecting social power and representing the worldview of dominant social groups. By addressing and challenging such claims, this edited collection argues that proclamations of the death of disciplines have been greatly overstated. Not only are the notions of disciplinarity still important for understanding how we come to know the world, but t
