

1. Record Nr.	UNINA9910825614903321
Titolo	Lyme disease and relapsing fever spirochetes : genomics, molecular biology, host interactions and disease pathogenesis / / editor, Justin D. Radolf
Pubbl/distr/stampa	Norfolk, England : , : Caister Academic Press, , [2021] ©2021
ISBN	1-913652-62-9
Descrizione fisica	1 online resource (769 pages) : illustrations
Altri autori (Persone)	SamuelsD. Scott
Disciplina	616.9246
Soggetti	Lyme disease Molecular biology Parasitology Relapsing fever Spirochetes Tick-borne diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	Written by renowned scientists who have made seminal contributions to the field, this book contains an expansive treatment of the options to track live spirochetes and evaluate gene expression in ticks and mice, provides insights into the workings of the flagellar motor, presents up-to-date research on the modulation of gene expression, and reviews recent studies on the Lyme disease spirochete's networks of regulatory pathways.
