Sommario/riassunto Cross-border studies have become attractive for a number of fields. including international migration, studies of material and cultural globalization, and history. While cross-border studies have expanded, the critique on nation-centered research lens has also grown. This book revisits drawbacks of methodological nationalism in theory and methodological strategies. It summarizes research methodologies of the current studies on transnationalization and globalization, such as multi-scalar and transnational approaches, global and multi-sited ethnography, as well as the entangled history approa
