| Sommario/riassunto | Writing With, Through, and Beyond the Text: An Ecology of Language elaborates an understanding of writing, its influences on our interpretations of experience and identity, and its potential for enabling individuals to learn about and connect to the world beyond themselves. Rather than considering writing a process, the author describes it as a system, an ecology that engages the individual in a variety of socially constituted and interacting systems. The book examines the pedagogical and curricular implications of this approach to writing, |
