Nota di contenuto	Prologue : suffocation of the mother -- Mysteria -- Neurologie -- An English malady? -- Reflexly mad -- American nervousness -- A hysterical circus -- Freudian hysterics -- The wounds of war -- L'hysterie morte?
Sommario/riassunto	The story of hysteria is a curious one, for it persists as an illness for centuries before disappearing. Andrew Scull gives a fascinating account of this socially constructed disease that came to be strongly associated with women, showing the shifts in social, cultural, and medical perceptions through history.
