

1. Record Nr.	UNINA9910825807103321
Titolo	Foam engineering : fundamentals and applications / / edited by Paul Stevenson
Pubbl/distr/stampa	Chichester, West Sussex, : Wiley, 2012
ISBN	9786613694973 9781119961093 1119961092 9781280784583 128078458X 9781119954637 1119954630 9781119954620 1119954622
Edizione	[1st ed.]
Descrizione fisica	1 online resource (554 p.)
Altri autori (Persone)	StevensonPaul <1973->
Disciplina	620.1
Soggetti	Foam Foam - Industrial applications Foam - Technological innovations Foamed materials
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Fundamentals -- pt. 2. Applications.
Sommario/riassunto	"Containing contributions from leading academic and industrial researchers, this book provides a much needed update of foam science research. The first section of the book presents an accessible summary of the theory and fundamentals of foams. This includes chapters on morphology, drainage, Ostwald ripening, coalescence, rheology, and pneumatic foams. The second section demonstrates how this theory is used in a wide range of industrial applications, including foam fractionation, froth flotation and foam mitigation. It includes chapters on suprafoths, flotation of oil sands, foams in enhancing petroleum recovery, Gas-liquid Mass Transfer in foam, foams in glass

manufacturing, fire-fighting foam technology and consumer product foams. Key features: Foam fractionation is an exciting and emerging technology, starting to gain significant attention. Discusses a vital topic for many industries, especially mineral processing, petroleum engineering, bioengineering, consumer products and food sector. Links foam science theory to industrial applications, making it accessible to an engineering science audience. Summarizes the latest developments in this rapidly progressing area of research. Contains contributions from leading international researchers from academia and industry"--
