Disciplina	155.232
Soggetti	Aggressiveness Violence
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	The text follows the revised edition as Owl Book,(Henry Holt and Company, New York) 1992. Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Erich Fromm's groundbreaking examination of aggression and human natureThroughout history, humans have shown an incredible talent for destruction as well as creation. Aggression has driven us to great heights and brutal lows. In The Anatomy of Human Destructiveness, renowned social psychologist Erich Fromm discusses the differences between forms of aggression typical for animals and two very specific forms of destructiveness that can only be found in human beings: sadism and necrophilic destructiveness. His case studies span zoo animals, necrophiliacs, and the psychobiographies of notorious figures such as Adolf Hitler and Joseph Stalin. Through his broad scholarship, Fromm offers a comprehensive exploration of the human impulse for violence.This ebook features an illustrated biography of Erich Fromm including rare images and never-before-seen documents from the author's estate.
