4.4 Possessive pronouns

## Sommario/riassunto

A Student Grammar of German is an invaluable reference guide for undergraduates and other intermediate and advanced students. Written with the needs of the learner very much in mind, it sets out the grammar of the language in a clear and jargon-free way. Each chapter starts with an overview of the main grammatical terminology and concepts; these terms are also cross-referenced in the glossary at the end of the book. To provide a visual guide through each chapter, the main points in each section are highlighted, and tables summarise important patterns. 'Tip' boxes, which help the student to master particular points, are scattered through the text. Every point has numerous illustrative examples, each with its translation, carefully chosen from a wide range of printed and electronic media - books, newspapers, magazines, film and chat-rooms - to reflect contemporary usage across a range of registers.

2. Record Nr.	UNINA9910778449503321
Autore	Sonnino Paul
Titolo	Mazarin's quest [[electronic resource] ] : the Congress of Westphalia and the coming of the Fronde / / Paul Sonnino

Soggetti	Terrorism - Sahel Sahel Politics and government Africa Sahel
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction : a fragile region under threat -- The context : corruption, fragility, and hardship in the Sahel and Lake Chad Basin -- The core violent extremist groups : AQIM and Boko Haram -- Conclusion : challenges for international engagement.
Sommario/riassunto	"An arc of instability stretching across Africa's Sahel region, an area of strategic interest for the United States and its allies, is plagued by violent extremist organizations (VEOs). These organizations, including Boko Haram, al Qaeda, and other terror groups, have metastasized and present a serious threat to regional stability. Now these VEOs are transitioning. Under sustained pressure from French and regional security forces, and reeling from the loss of senior leaders, many of these groups feel backed into a corner. Despite setbacks, the groups continue to plague the region. To enhance policymakers' understanding of these threats and how to respond to them, CSIS experts from the Africa Program and Transnational Threats Project conducted field-based and scholarly research examining the broad range of factors at play in the region. This research provides little ground for optimism. Chronic underdevelopment, political alienation, failed governance and corruption, organized crime, and spillover from Libya help foster and sustain violent extremists throughout the Sahel"--Publisher's web site.
