

1. Record Nr.	UNINA9910826258703321
Autore	Shaw Alison <1957->
Titolo	Negotiating risk : British Pakistani experiences of genetics / / Alison Shaw
Pubbl/distr/stampa	New York, : Berghahn Books, 2009
ISBN	1-282-62748-1 9786612627484 1-84545-887-7
Descrizione fisica	1 online resource (294 p.)
Disciplina	616/.042
Soggetti	Medical genetics - Great Britain Consanguinity - Great Britain Pakistanis - Great Britain
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 253-274) and index.
Nota di contenuto	Medical and public perceptions of consanguineous marriage and genetic risk -- Close kin marriages : some anthropological theory and European history -- British Pakistani cousin marriages : balancing marital risks -- Medical surveillance and diagnostic uncertainty -- Responding to reproductive risk -- Foretelling and managing infant death -- Genetic screening and the extended family -- Genetic risk in context.
Sommario/riassunto	Drawing on fieldwork with British Pakistani clients of a UK genetics service, this book explores the personal and social implications of a 'genetic diagnosis'. Through case material and comparative discussion, the book identifies practical ethical dilemmas raised by new genetic knowledge and shows how, while being shaped by culture, these issues also cross-cut differences of culture, religion and ethnicity. The book also demonstrates how identifying a population-level elevated 'risk' of genetic disorders in an ethnic minority population can reinforce existing social divisions and cultural ster
