Edizione	[1st edition]
Descrizione fisica	1 online resource (214 pages) : illustrations
Collana	Information systems, web and pervasive computing series
Disciplina	303.4833
Soggetti	Information technology - Political aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Digitalization is a long and constant sociohistoric process in which all areas of society's activities are reconfigured. Digitalization of Society and Socio-political Issues 1 examines the transformations linked to the development of digital platforms and social media, which affect the cultural and communicational industries. It analyzes the formation of Big Data, their algorithmic processing and the societal changes which result (social monitoring and control in particular). Through critical views, it equally presents the various ways in which technology participates in relations of power and domination, and contributes to possible emancipatory practices.
